“What I cannot create, I do not understand” — Richard Feynman.

Data Engineer, Python Programmer, and Builder of Simple Models.

Professional Experience: Simple Physics Model Approximations, PySpark Programmer, Time Series Modeling, Power BI Enthusiast, and Machine Learning Models.

Academic Experience: Detector Modeling, Nuclear Reaction Simulation, and Elemental Composition Analysis.

I am seeking to expand my experience as a Data Engineer and Data Analyst, with a strong willingness to acquire new knowledge across various domains (such as finance, commerce, and supply chain). I aim to deliver reliable programming and statistical expertise.

Proactive, committed, and a strong team leader.
